

## Church of de christ in Nicaragua – Report august

### Activity of children - Children's dining room

Our program attracts children from the community. In August we gathered 43 children. We teach Bible classes, games, and a lunch. We have already started visiting their homes and talking with their parents.

### Evangelism

We are visiting the homes of children who accompany us in the church, we are meeting new people and preaching to them.

### Youth classes

We are encouraging and creating programs for young people, who are mostly in their age range between 12 and 16 years. This month we met, we offered class biblical, then a time of communion, and at the end we watched a movie.

### Ladies program

We have an active women's program, they meet to learn the scriptures. Your program has strengthened your communion and friendship. We are urging each one to be part of the different programs: children, visitation, evangelism...
